subject index

BIOCHEMICAL SYSTEMATICS AND ECOLOGY

INDEX TO VOLUME 17 (1989)

Abramis, species-specificity of electrophoretic patterns of haemoglobin from 479
Affinity-purified antibodies, use of in probing relationships of higher taxa of ferns 103
Algae,
  Dragendorff-positive compounds in some red Mediterranean sp. of 5
  carotenoids in two races of *Botryococcus braunii* 263
  glutamine synthetase from *Dunaliella primolecta* 503
Alkaloids,
  chemotaxonomic significance of in the genus *Lebeckia* 225
  chemotaxonomy of in the genus *Virgilia* 231
  chemotaxonomy of major in *Lotononis* and *Buchenroedera* 385
  chemotaxonomic significance of in *Pearsonia* 391
  effects on choice of mixed diets by herbivores 493
Allelopathy, field screening for in tropical forest trees 403
Alnus glutinosa, individual variation in flavonoids excreted onto leaves of 239
Amino acids,
  free, changes according to salinity and osmotic shock in *Penaeus* 59
  chemosystematics of in Indian *Ophioglossum* sp. 167
  variation in composition of in cultivars of cassava 199
  novel mechanism for detoxification of *L*-canaline in jack bean 203
  free, influence of salinity on concentration of in tissues of *Penaeus japonicus* . 589
Ammonia, excretion, changes according to salinity and osmotic shock in *Penaeus* 59
Anal sacs, constituents of from domestic *Canis familiaris* 83
Arachis, comparative analysis of repetitive DNA in 5 sp. of 11
Artemisia dracunculus, chemotaxonomy of flavonols from 2 cultivars of 373
Asplenium, chemosystematics of flavonol glycosides from 161
Bacteria,
  plant pathogenic, caffeic acid esters as *in vitro* inhibitors of 175
  activity of diterpenes from *Salvia* sp. against 293
Biflavones, chemosystematics of in the Taxodiaceae 365
Birds, DNA analysis and phylogenetic relationships of Galliform 77
Botryococcus braunii, carotenoids in 2 races of 263
Brachionus plicatilis, total protein analysis in 44 clones of 409
Bretschneidera sinensis, glucosinolates in leaves of 375
Buchenroedera, chemotaxonomy of alkaloids from 5 sp. of 385
Caffeic acid, esters of, as *in vitro* inhibitors of bacteria and fungi 175
Canaline, novel mechanism for detoxification of in jack bean 203
Canavalia ensiformis, detoxification of *L*-canaline in seeds of 203
Carotenoids,
  sulphated, occurrence in 3 isolates of *Ianthella flabelliformis* 51
  primary and secondary, in 2 races of *Botryococcus braunii* 263
  influence of water temperature on in *Palaemon serratus* 319
Centrospermae, 2-D electrophoresis in chemosystematics of 573
Cheilanthes, chemosystematics of flavonol glycosides from 161
Chemosystematics,
  of allozyme variation in populations of *Gymnaedenia conopsea* 25
  of seed proteins from N. American populations of *Zizania* 39
  of sulphated carotenoids in *Ianthella flabelliformis* 51
  biochemical, significance of Ldh-C gene expression in teleostean fishes 69
  of di- and sesquiterpenes in Polypodiaceous ferns 131
  of exudate flavonoids from fern leaves 141
  of flavonoids and *C*-glycosylxanthones in 'ferns' 145
  of flavonol glycosides from *Asplenium* and *Cheilanthes* 161
  biochemical, of Indian *Ophioglossum* sp. 167
  of monosaccharides in mucilages from Cycadales 185
  of leaf flavonoids from *Cyperus* sp. in Egypt 191
  of leaf flavonoids in populations of *Milium effusum* 197
  of monoterpenoids in wood of *Pinus edulis* 271
  biochemical, of elephant shrews from southern Africa 345
  of biflavones in the Taxodiaceae 365

Chemosystematics,
of total protein in clones of *Brachionus plicatilis* 409
biochemical, of sea-urchin sp. of the Diadematidae 423
of flavonoids in the *Oryza latifolia* complex 443
importance of iridoids in *Cruckshanksia verticillata* 569
2-D electrophoresis of proteins from the Centrospermae 573
biochemical, of the *Leptothorax "muscorum"* group 595
Chemotaxonomy,
of Dragendorff-positive compounds in red marine algae 5
of essential oil components of *Piper betle* cultivars 35
of restriction site variation in chloroplast DNAs from ferns 93
of flavonoids from the 'fern allies' 155
of alkaloids in the genus *Lebeckia* 225
of major alkaloids in the genus *Virgilia* 231
of seed lipids of Cucurbitaceae grown in Argentina 287
of cyanogenesis in *Lotononis* and related genera 297
of luteolin glycosides in *Ferula* and related genera 309
of isoprenoid fatty acids in phospholipids of marine sponges 311
of sterols in marine sponges of the Verongidae 315
of flavonols from two cultivars of *Artemisia dracunculus* 373
of glucosinolates in leaves of *Bretschneidera sinensis* 375
of major alkaloids from *Lotononis* and *Bechenroedera* 385
of alkaloids in *Pearsonia* 391
of flavonoids in annual sp. of *Stephanomeria* 451
of foliar flavonoid aglycones from the genus *Keckiella* 455
microtechnique for sesquiterpene profiles from *Helianthus* 509,519
of external flavonoid aglycones from *Viguiera* series *Viguiera* 535
Copaifera langsdorfii, leaf sesquiterpenes in relation to herbivory of 207,217,551
Cottus, associations between genetic heterozygosity and morphological variability in .. 333
Crayfish, immunochemistry of haemocyanins from Australasian freshwater 249
Cruckshanksia verticillata, chemosystematic importance of iridoids in 569
Cucurbitaceae, chemotaxonomy of seed lipids from Argentinian 287
Cyanogenesis, taxonomic significance of in Lotononis and related genera 297
Cycadales, systematic value of monosaccharides in mucilages from 185
Cyperus, chemosystematics of leaf flavonoids from Egyptian sp. of 191
Dactylis glomerata, tetraploidy and habitat differentiation in Spanish 283
Dehydrogenases, polymorphism of lactate and malate in stickleback populations 253
Diadematidae, biochemical systematics of 4 sp. from 423
Diterpenoids,
chemosystematics of in Polypodiaceous ferns 131
antibacterial activity of from *Salvia* sp. 293
intraspecific variation in defence secretions of *Nasutitermes ephratae* 327
DNA,
repetitive, comparative analysis in 5 *Arachis* sp. 11
chloroplast, method for restriction fragment length polymorphism studies 45
analysis of mitochondrial and nuclear from Galliformes sp. 77
evolution of chloroplast in some polystichoid ferns 93
variation in chloroplast indicates incorrect classification of *Silene noctiflora* 539
Dog, chemical constituents of anal sacs from domestic 83
Dragendorff-positive compounds, in 20 sp. of Mediterranean red algae 5
Dufour gland, contents of 3 sp. of Euro-African Messor ants 469
Dunaliella primolecta, glutamine synthetase from 503
Duroia hirsuta, field screening for allelopathy in 403
Electrophoresis,
of isoenzymes in 16 populations of *Gymnaedenia conopsea* 25
of seed proteins of N. American populations of *Zizania* 39
in restriction fragment length polymorphism studies of chloroplast DNA 45
of lactate dehydrogenase isozymes from 52 sp. of teleostean fishes 69
of mitochondrial and nuclear DNA from Galliformes sp. 77
of restriction site mutations in chloroplast DNAs from ferns 93
of 11s spore storage proteins in higher taxa of ferns 103
use of isozyme data for inferring ancestry of polyploid Pteridophytes 117
of dehydrogenase isoenzymes from stickleback populations 253
of plasma proteins in haemolymph from males of two Heteroptera groups 323
of allozymes and morphological variance in the genus *Cottus* 333

Electrophoresis,
of enzymes and morphological variance in 2 fish populations 341
of allozyme variations in 7 sp. of elephant shrews 345
total protein analysis of rotifer populations 409
of enzymes from sea-urchin sp. of the Diadematidae 423
of allozymes and genetic variability in the Lucinidae 463
patterns of haemoglobin in the fish genus *Abramis* 479
of glucose phosphate isomerase from *Sciaenops ocellatus* 489
of chloroplast DNA restriction fragments in *Silene* section *Elisanthe* 539
2-D, as taxonomic tool for the Centrospermae 573
enzyme patterns of sp. from *Leptothorax "muscorum"* group 595
analysis of esterases from sp. of the Trichogrammatidae 603
Elephants, food selection by, in the miombo biome 15
Eleutheronema tetradactylum, enzyme heterozygosity and morphological variance in 341
Enzymes,
polymorphisms of isoenzymes from populations of *Gymnaedenia conopsea* 25
lactate dehydrogenase isozymes in 52 sp. of teleostean fishes 69
use of isozyme data for inferring ancestry of polyploid Pteridophytes 117
polymorphism of 2 dehydrogenases in populations of sticklebacks 253
allozyme variation in freshwater sculpins 333
heterozygosity of and morphological variance in 2 fish populations 341
allozyme and chromosomal analyses of elephant shrews 345
urease secretion by 7 sp. of Finnish lichens 359
allozyme variation in the Diadematidae 423
genetic variability of allozymes in the Lucinidae 463
tandem duplication of glucose phosphate isomerase in *Sciaenops ocellatus* 489
properties of glutamine synthetase from *Dunaliella primolecta* 503
electrophoretic analysis of esterases from sp. of the Trichogrammatidae 603
Evolution,
of chloroplast DNA in some polystichoid ferns 93
modes and mechanisms in homosporous Pteridophytes 109
Fatty acids,
chemotaxonomy of in seed oils from Argentinian Cucurbitaceae 287
4,8,12-trimethyltridecanoic in phospholipids from marine sponges 311
composition of in organs of *Macoma balthica* 583
Ferula, chemotaxonomy of luteolin glycosides in and related genera 309
Fish,
lactate dehydrogenase isozymes in 52 sp. of teleostean 69
polymorphism in populations of three- and ninespine sticklebacks 253
genetic heterozygosity and morphological variability in freshwater sculpins 333
enzyme heterozygosity and morphological variance in 2 populations of 341
polymorphism of haemoglobin in sp. of freshwater bream 479
tandem duplication of glucose phosphate isomerase in red drum 489
Flavonoids,
exudate, chemosystematics of in fern leaves 141
chemosystematics of in 'ferns' 145
chemotaxonomy of in the 'fern allies' 155
chemosystematics of flavonol glycosides from *Asplenium* and *Cheilanthes* 161
leaf, chemosystematics of in *Cyperus* sp. from Egypt 191
chemosystematics of in leaves from populations of *Milium effusum* 197
individual variation in from leaf surfaces of *Alnus glutinosa* 239
patterns in polyploids of Spanish *Dactylis glomerata* 283
chemotaxonomy of luteolin glycosides in *Ferula* and related genera 309
chemosystematics of biflavones in the Taxodiaceae 365
chemotaxonomy of flavonols from *Artemisia dracunculus* 373
glycoside profiles in some Monotropoideae 399
taxonomic variation of in the *Oryza latifolia* complex 443
C-glucosylflavones in the genus *Ornithogalum* 449
chemotaxonomy of in annual sp. of *Stephanomeria* 451
chemotaxonomy of foliar aglycones from the genus *Keckiella* 455
external aglycones from leaves of *Viguiera* series *Viguiera* 535
Fungi,
plant pathogenic, caffeic acid esters as *in vitro* inhibitors of 175
polyols from the aquatic *Zoophagus insidians* 439
Glucose phosphate isomerase, tandem duplication of in *Sciaenops ocellatus* 489

Glucosinolates, presence in leaves of *Bretschneidera sinensis* 375
Glutamine synthetase, properties of from *Dunaliella primolecta* 503
Glutathione, concentration of in erythrocytes of 14 Spanish goat breeds 609
Glyceollins, occurrence in plants related to *Glycine max* 395
Glycine max, occurrence of glyceollins in plants related to 395
Goats, concentration of glutathione in erythrocytes of 14 Spanish breeds 609
Gymnaedenia conopsea, isoenzyme polymorphism in populations of 25
Haemocyanins, immunochemistry of from Australasian freshwater crayfish 249
Haemoglobin, species-specificity of electrophoretic patterns in *Abramis* 479
Halichondria panicea, identification of sulphur compounds in 459
Helianthus, sesquiterpene lactone profiles,
of 64 taxa from the genus 509
of 18 taxa from annual section 519
Herbivory,
leaf sesquiterpenes in relation to in *Copaifera langsdorfii* 207,217
idiosyncratic effects of plant secondary products in mixed diets 493
microlepidopteran, sesquiterpene variability in relation to in leaves of *Copaifera langsdorfii* 551
Heterotheca subaxillaris, variation in leaf mono- and sesquiterpenes 529
Hydrocarbons,
epicuticular, in 17 sp. of Ericaceae from British Columbia 381
in Dufour glands of Euro-African Messor ants 469
Immunochemistry,
of haemocyanins from Australasian freshwater crayfish 249
laser nephelemetric analysis of lectins from *Lathryus* and Viciaceae seeds 305
Insects,
storage pests, antifeedant activity of rotenone and its derivatives towards 55
electrophoretic studies of male haemolymph in two Heteroptera groups 323
intraspecific variation in defence secretions of *Nasutitermes ephratae* 327
sex attractants of Tineid and Sesiid moths 417
Dufour gland contents of Euro-African ants 469
Iridoids, chemosystematic importance of in *Cruckshanksia verticillata* 569
Keckiella, foliar flavonoid aglycones from the genus 455
Lanthella flabelliformis, sulphated carotenoids in 3 isolates of 51
Lathyrus, laser immuno-nephelemetry of lectins from 305
Leaf chemistry, in relation to food selection by elephants in the miombo biome 15
Lebeckia, chemotaxonomy of alkaloids in 225
Lectins, laser immuno-nephelemetric antigen-antibody precipitation analysis of 305
Leptothorax, biochemical systematics of *"muscorum"* group 595
Lichens, urease production and secretion by 7 sp. of Finnish 359
Lipids,
in paracloacal gland secretions from two *Paleosuchus* sp. 431
composition and storage in tissues of *Macoma balthica* 583
Lotononis,
taxonomic significance of cyanogenesis in and related genera 297
chemotaxonomy of alkaloids from 27 sp. of 385
Lucinidae, genetic variability in from Brittany 463
Luteolin, chemotaxonomy of glycosides of in *Ferula* and related genera 309
Macoma balthica, lipid composition and storage in tissues of 583
Manihot esculenta, variation in protein and amino acids in cultivars of 199
Messor, Dufour gland contents of 3 Euro-African sp. of 469
Milium effusum, flavonoids in leaves from natural populations of 197
Miombo woodlands, food selection by elephants in 15
Monosaccharides, systematic value of in mucilages of Cycadales 185
Monoterpenoids,
differentiation in relation to morphology of *Pinus edulis* 271
intraspecific variation in defence secretions of *Nasutitermes ephratae* 327
genetic and environmental variations in leaves of *Heterotheca subaxillaris* 529
geographical variation in composition of from leaves of *Valeriana officinalis* .. 563
Monotropoideae, flavonoid glycosides in 5 sp. of 399
Moths, octadecadienyl compounds as sex attractants for Tineid and Sesiid 417
Nasutitermes ephratae, intraspecific variation in defence secretions from soldiers of . 327
Octadecadienyl compounds, as sex attractants for moths 417
Odour, profiles from anal sac secretions of domestic dogs 83

Oligosaccharides, composition of in seeds of 5 cultivars of *Vicia faba* 559
Ophioglossum, chemosystematics of Indian sp. of 167
Ornithogalum, C-glucosylflavones in the genus 449
Oryza latifolia, taxonomic variation of flavonoids in complex of 443
Palaemon serratus, influence of water temperature on carotenoids in 319
Paleosuchus, lipids in paracloacal gland secretions from 2 sp. of 431
Paracloacal glands, lipids in secretions from 2 caiman sp. 431
Pearsonia, chemotaxonomic significance of alkaloids in 391
Penaeus japonicus,
changes in amino acid content and ammonia excretion in according to salinity and osmotic shock 59
influence of salinity on amino acids in muscle and hepatopancreas of 589
Phytoalexins, occurrence of glyceollins in plants related to *Glycine max* 395
Pinus edulis, monoterpenoid differentiation in populations of 271
Piper betle, essential oil components as markers for identification of cultivars of . 35
Polyols, identification of in the aquatic fungus *Zoophagus insidians* 439
Polyploidy,
in the evolution of homosporous Pteridophytes 109
use of isozyme data for inferring ancestry of in Pteridophytes 117
reflection by flavonoid patterns in *Dactylis glomerata* from Spain 283
Proteins,
electrophoretic profiles of seed, from populations of *Zizania* 39
immunological comparisons of spore storage in higher ferns 103
variation in content of in cultivars of cassava 199
laser immuno-nephelemetric antigen-antibody precipitation of *Lathyrus* lectins .. 305
plasma, electrophoretic studies of in two groups of Heteroptera 323
total analysis of in 44 clones of *Brachionus plicatilis* 409
2-D electrophoresis of in chemosystematics of the Centrospermae 573
Pteridophytes,
chloroplast DNA evolution of some polystichoid ferns 93
immunological comparisons of spore storage proteins of higher ferns 103
evolutionary modes and mechanisms in homosporous 109
use of isozyme data for inferring ancestry of polyploid 117
chemosystematics of terpenoids in Polypodiaceous ferns 131
chemosystematics of exudate flavonoids in ferns 141
chemosystematics of flavonoids and C-glycosylxanthones in ferns 145
flavonoids of the 'fern allies' 155
flavonol glycosides from *Asplenium* and *Cheilanthes* 161
chemosystematics of Indian *Ophioglossum* sp. 167
Restriction fragment length polymorphism, method for study of in chloroplast DNA ... 45
Rotenone, antifeedant activity towards 3 insect storage pests 55
Salvia, antibacterial activity of diterpenes from sp. of 293
Sesquiterpenoids,
chemosystematics of in Polypodiaceous ferns 131
variation in relation to herbivory of *Copaifera langsdorfii* 207,217
lactone profiles from glandular trichomes of 64 taxa of *Helianthus* 509
lactone profiles from glandular trichomes from annual *Helianthus* 519
genetic and environmental variations in leaves of *Heterotheca subaxillaris* 529
intra- and interplant variability in leaves of *Copaifera langsdorfii* 551
Sex attractants, octadecadienyl compounds for Tineid and Sesiid moths 417
Shrews, elephant, biochemical systematics of from southern Africa 345
Silene noctiflora, chloroplast DNA variation indicates incorrect classification 539
Sponges,
chemosystematics of sulphated carotenoids in *Ianthella* 51
4,8,12-trimethyltridecanoic acid from Spirastrellidae and Clionidae 311
sterol composition of *Verongula gigantea* 315
sulphur compounds in *Halichondria panicea* 459
Stephanomeria, flavonoids from annual sp. of 451
Sterols, composition of in the marine sponge *Verongula gigantea* 315
Sticklebacks, polymorphism in populations of three- and ninespine 253
Strongylura strongylura, enzyme heterozygosity and morphological variance in 341
Sulphur compounds, identification of in marine sponge *Halichondria panicea* 459
Tannins, effects on choice of mixed diets by herbivores 493
Taxodiaceae, chemosystematics of biflavones from 365
Trichogrammatidae, electrophoretic analysis of esterases in sp. of 603

Tropical forest trees, field screening for allelopathy in 403
Urease, production and secretion by 7 sp. of Finnish lichens 359
Valeriana officinalis, geographical variation of monoterpenes in leaves from 563
Vicia faba, oligosaccharides in seeds of 5 cultivars of 559
Viguiera, external flavonoid aglycones from leaves of series *Viguiera* 535
Virgilia, chemotaxonomy of major alkaloids in 231
Xanthones, C-glycosyl, chemosystematics of in 'ferns' 145
Zizania, seed protein profiles of N. American populations of 39
Zoophagus insidians, polyols from the aquatic fungus 439
